

Exterior Protection Maintenance Plan™

Annual inspections and preventative care
Keeping your FreshStart protection system performing year after year

\$299

 – \$399 / year

TYPICAL ANNUAL INVESTMENT · BASED ON HOME SIZE

Catch small problems before they become expensive ones.

A \$299 annual visit can prevent a \$9,000 repaint. Minor wear is simple to fix when caught early.

The FreshStart Exterior Protection Maintenance Plan™ provides annual inspections and preventative care that help ensure your exterior protection system continues performing as intended – protecting your investment for years to come.

ANNUAL VISIT INCLUDES

- **Paint condition inspection**
full assessment of coating performance
- **Sealant and joint review**
all joints and transitions checked
- **Trim and transition check**
vulnerable or failing areas identified
- **Early wear detection**
adhesion issues caught before spreading
- **Preventative touch-ups**
minor repairs made during the visit
- **Written condition report**
documentation and recommendations

Annual visit: 30–60 minutes, at your convenience

IDEAL FOR HOMEOWNERS WHO WANT

- Long-term protection of their exterior investment
- Proactive care instead of reactive repairs
- Professional inspection of their paint system
- Peace of mind between full repaints

PLAN DETAILS

Available after: completing any FreshStart exterior project

Renewal: annual, scheduled at your convenience

Coverage: exterior paint system and all sealed areas

Urgent findings: response within 24 hours

WHAT IT PROTECTS

Extends paint system life

Preventative care keeps coatings performing longer

Maintains exterior appearance

Home stays sharp between full repaints

Identifies issues early

Small problems addressed before they grow

Protects your investment

Proactive care costs far less than reactive repairs

3% of every project supports our community.

First responders, veterans,
and their families.

A portion of every FreshStart project gives back.

WHY ANNUAL MAINTENANCE MATTERS

Small issues, found early

Minor paint wear and sealant failure are inexpensive to address during an annual visit. Left undetected, the same issues can require a full repaint.

Your investment protected

The cost of a single annual visit is a fraction of what early failure costs. Prevention is always less expensive than repair.

HOW IT WORKS:

1

Complete your exterior project with FreshStart

2

Enroll in the annual Maintenance Plan

3

We schedule your annual inspection visit

4

We inspect, document, and maintain — every year
